The most empathetic OS we've ever seen

Knows what you need. Knows how you feel.

Your iPhone has always been more than just a phone. Now, Siri and iOS 20 can be a shoulder to cry on or friend to share joy with. Integration with wearable iFeel unlocks real-time emotion monitoring to offer a more personalized and empathetic mobile experience.

Siri can understand how you're feeling to help you find what matches your mood. Siri can help you proactively cancel plans you might not feel up for attending, or suggests upcoming events for that special someone you're excited to see... or maybe just help find specials on Ben and Jerry's and Netflix suggestions for when all you want to do is stay in.
